Specifications	
Configuration	90 degree exit (Left or Right)
2 Step Platform Height	200–400mm
3 Step Platform Height	410–600mm
Platform Length	1000mm
Handrail Height from Platform	+1000mm
Step Width	900mm
Step Depth	300mm
Kickplate Height	100mm
Box Section	25mm or Heavy Duty 40mm

These fixed access steps provide a 90 degree exit from the platform, with additional platform space for the operator. They come with a 100mm kickplate as standard. Exit direction can be specified Left or Right.

Access steps are painted as standard using a one coat primer/finish - Zinfos 700CT, or can be galvanized. Available in 2 Step or 3 Step, and in 25mm box or Heavy Duty 40mm box section. Standard platform surface is chequerplate; walkway mesh and punched treads are optional.

We manufacture our access steps using prime steel and components at our factory in Kettering.
