Lower Shelf Width	1160mm
Lower Shelf Depth	530mm
Finish	Black

This heavy duty workbench made from high quality steel construction is ideal for any work environment. With its robust frame and 5mm thick work top, it is suitable for heavy and light loads alike and is durable to last years after purchase.

The work table has a second shelf below the first platform made from 3mm thick sheet steel which is convenient for storage or keeping essential tools easily accessible.

This work bench is extremely robust and stable, however it isn't a rigid construction and can be disassembled making it perfect for storing in a smaller space when not in use. These workbenches come in black.
