

Heavy Duty Steel Cargo Stay S-CS008

Product Overview

Z/S/CS008

Load restraint items ship in bundles. Delivery is calculated at checkout according to the number of bundles needed. Collection from our Kettering premises is free.

Specifications	
Adjustable Length	2.15m – 2.61m
Finish	Zinc plated

This Heavy Duty Cargo Stay is made from tubular steel in a zinc plated finish and is fitted with Rubber Pads at each end. There are a series of holes with an adjustment pin so you can set the cargo stay to suit the width of the trailer. Then simply operate the cantilever lever handle to tension the cargo stay in position. As an additional option, we can make one end sprung so tension is maintained in the cargo stay if the trailer walls flex when in transit - please contact us.
