Mobile Steps lead time is generally 7 days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then despatch the mobile ladders on a 3 day service.

Specification	
Platform Height From Ground	1750mm
Overall Width	630mm
Length	1460mm
Overall Height	2750mm
Bottom Step Size	200mm x 550mm
Platform Size	400mm x 400mm
Step Tread Depth	200mm
Step Tread Vertical Spacing	250mm
Weight	51kg
Load Capacity	300kg

- Our budget range of Narrow Aisle mobile steps is still just as heavy duty as our standard Narrow Aisle range. The structure is identical, we have simply removed a few features to lower the cost.
- They are robustly made with a fully welded structure to take the daily abuse that a modern warehouse demands.
- They should not be used in open spaces as they are not as stable if the operative is leaning out. The narrow aisle mobile steps have tapering sides so the user is forced to stand over the centre line improving stability.
- Our standard range sports 2 fixed castors at the rear end and 2 swivel castors at the front.
- The mobile ladder is fitted with our industrial hi-grip step as standard, also a 100mm kick-plate and safety operating sticker.
- Mobile steps are painted as standard using a one coat primer/finish - Zinfos 700CT, or can be galvanized.
