## **Product Sheet**

## Axial Mobile Step 5 Step - 1250mm

## **Product Overview**

Mobile Steps lead time is generally 7 days. Whilst we stock the step components, the mobile steps are built to order. We would typically allow 3 days to build the steps, a day to paint them and then despatch the mobile ladders on a 3 day service.

Specification	
Platform Height From Ground	1250mm
Overall Width	540mm
Length	1120mm
Overall Height	2250mm
Bottom Step Size	200mm x 460mm
Platform Size	400mm x 400mm
Step Tread Depth	200mm
Step Tread Vertical Spacing	250mm
Weight	55kg
Load Capacity	300kg

These Axial Mobile Steps are based on our standard heavy duty range of steps, with all the strength, but with narrow steps and 4 swivel castors. This gives them great manoeuvrability, and ideal for narrow spaces.

Our Axial range sports 4 swivel castors which enable the steps to rotate within their own footprint. These swivel castors can be raised so the steps frame bottoms out on the ground.

There are 2 lever brakes mounted within the structure which disengage each pair of wheels.

Fitted with our industrial hi-grip step as standard, also a 100mm kick-plate and safety operating sticker.

• Mobile steps are painted as standard using a one coat primer/finish - Zinfos 700CT, or can be galvanized.
